

Group Pages

Understanding Group Pages

Groups are used in the website for many purposes to group together members. Each chapter is represented by a “group”. Additionally, the national governance board, and committees are represented by groups. Finally, all members belong to the general membership group by default; so everyone can belong to one or more groups.

Layout

In the Group Page, you will see the following sections:

1. The group name (group, chapter, or committee)
2. Group information; number of members and detail information about the group
3. Group icon image
4. Member listing for the group

*A members' name can be clicked, to view their profile. Limited information about a member is provided on their member “card” in the membership area of the group page.
